Nr. 139

Artifice to Puritan.

1. Plan Ivy, SCI/Z/124, para 7(3) refers, based on fundamental fact GIS intend vast sabotage of Northern Industry. Proof is para 15, my SCI/Z/28.
2. Also fact Begus, SCI/Z/13, para 7, crack post-occupational sabotage expert, transferred Verona from Greece.
3. Will work plan using SIS heads, Galosi and Salty, whose high naval tradition and patriotic motives all-out for preservation Northern industry, knowing destruction and resulting unemployment, poverty, armed Partisans, will end in left-wing civil war.
4. Plan send Giulio Giorgis, born Rome, 13 May 1894, through lines. Cover name is Ivy.
5. Ivy high-grade engineer. Speaks English, French, and German.
6. Is cultured gentleman well-known to northern industrialists and potential D/A's.
7. Will make circuit of Genoa, Torino, Milan, Padova, Verona.
8. In each city will contact trusted individuals in Industry, Army, Naval and Police circles.
9. Each will be briefed into activating a cell-system within own sphere.
10. Special contacts on GI side include:
 - a. Borghese of Xth MAS, who is half-turned. Interrogations confirm he has freed Partisans. See Zanardi reports for background, SCI/Z/28 refers.
 - b. Buttazoni, of "N P", whose commanding officer was Galosi. Buttazoni to be given order by Galosi to penetrate GIS or be shot. Will be ordered to place trusted naval officers into GIS sabotage schools for purpose of coming through lines with SCI/Z password, registered with forward CIC and FBS detachments, and to remain in GIS post-sabotage networks. Great chance of success indicative from Piscia and Cesario reflections that Buttazoni is lost ship needing direction. Naval direction Rome will be his rudder.

c. Trusted professional police in North, friends of Pansy, will be briefed in target material of GIS training headquarters for stay-behinds. Authoritative orders from Rome to penetrate and observe GIS stays-behinds now.

11. Main Milan contact will be Engineer Cesare ^XBacchini, see SCI/Z/28, para 10. Owns largest radio factory Italy. Has large contract with German Signal Corps. Will supply 50 radios for Plan Ivy. Frequencies, codes, etc., will be ours. As each individual of para 9 and 10 becomes activated, can receive radio and codes with password.

12. Ivy will contact trustworthy Bacchini with letter from Latter's son, who is local naval officer.

13. Ultimate goal of Ivy is to brief and exhort top-men in North to work out own salvation.

14. Four distinct phases:

- a. Ivy contact and briefing.
- b. Hot-house period of incubation.
- c. 1st W/T contact, with orders coordinating growth in each city.
- d. Our eventual arrival and harvest.

15. Will be under SCI/Z control as we only have frequencies and codes.

16. Only 109, Rodrigo, 109's aide, Boy, Calosi, Rosie know of plan here.

17. 109 signed papers and Rodrigo said, in spite of SI potentiality, we could control it, distributing information as we chose.

18. Idea has never been tried here. Essence is fact that objectives of preventing SIS search program coincide desires of high-echelon participants, who cannot afford to lose.

19. Plan Ivy designed to creep into interstitial GIS structure, pulling the house down.

20. Control.
